To use this index : the references after each contributor are to, first, the page number and then the issue number. For volume number and title of symposium, please see front page. Poetry references (this page) are similarly listed. Where a contributor has more than one poem in a single issue this is indicated by an oblique stroke between page numbers (e.g. 19/48. 1033 indicates that this contributor has poems on pages 19 *and* 48 of issue number 1033).

Volume numbers : the volume numbers to be followed, at all times, are those printed on the spine of each issue. Please note that volumes 175 and 176 contain three, rather than four, issues. This is so that volume numbers could be correlated with the years, starting from 1968 (vol. 177). In future all volumes will contain four issues and correspond to a year's publication.

Issue numbers : the issue numbers to be followed are those printed on the spine of each issue. There is, however, a misprint in the Second Quarter 1967, for which we apologise. For issue no. 1023 please read no. 1033.

Binders : are available, price 17/6 ($2.80) post free, for your copies of Twentieth Century. They can hold four issues of the magazine, and are covered in leathercloth with the name of the magazine gold blocked on the spine. Orders to : Twentieth Century Ltd, 16 Hawley Square, Margate, Kent, England, to which all correspondence on subscriptions and back numbers should be addressed.
